

Grayswood CE Primary School Skills Progression Map

Subject: Art

Intent

The National Curriculum for art aims to ensure that all pupils:

- produce creative work, exploring their ideas and recording their experiences
- become proficient in drawing, painting, sculpture and other art, craft and design techniques
- evaluate and analyse creative works using the language of art, craft and design
- know about great artists, craft makers and designers, and understand the historical and cultural development of their art forms.

Through a supportive and nurturing environment, Grayswood CE Primary School deliver an art and design curriculum which aims to inspire our children and develop their confidence to trust themselves to experiment and invent their own pieces of art. We believe it is important to develop each child's ability, nurture their talents and interests, express their ideas and observations, as well as learning about the rich heritage and culture of the world around them. The children have the opportunity to explore ideas and meanings through studying the work of artists and designers. Furthermore, by learning about the roles and functions of art, they can explore the impact it has had on contemporary life and on different periods and cultures.

The children of Grayswood will have the tools to meet the end of key stage attainment targets in the National curriculum and the aims also align with those in the National curriculum.

	EYFS	Key Stage 1		Key Stage 2			
	Year R	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Art and Design							
Generating ideas	Talk about their ideas and explore different ways to record them.	Explore their own ideas using a range of media.	Begin to generate ideas from a wider range of stimuli, exploring different media and techniques.	Generate ideas from a range of stimuli and carry out simple research and evaluation as part of the making process.	Generate ideas from a range of stimuli, using research and evaluation of techniques to develop their ideas and plan more purposefully for an outcome.	Develop ideas more independently from their own research. Explore and record their plans, ideas and evaluations to develop their ideas towards an outcome.	Draw upon their experience of creative work and their research to develop their own starting points for creative outcomes.

Sketchbooks	Experiment in an exploratory way.	Use sketchbooks to explore ideas.	Experiment in sketchbooks, using drawing to record ideas. Use sketchbooks to help make decisions about what to try out next.	Use sketchbooks for a wider range of purposes, for example recording things using drawing and annotations, planning and taking next steps in a making process.	Use sketchbooks purposefully to improve understanding, develop ideas and plan for an outcome	Confidently use sketchbooks for purposes including recording observations and research, testing materials and working towards an outcome more independently.	Using a systematic and independent approach, research, test and develop ideas and plans using sketchbooks.
Making skills (including Formal elements)	<p>Use a range of drawing materials, art application techniques, mixed-media scraps and modelling materials to create child-led art with no set outcome.</p> <p>Cut, thread, join and manipulate materials safely, focussing on process over outcome.</p> <p>Begin to develop observational skills (for example, by using mirrors to include the main features of faces).</p>	<p>Develop some control when using a wide range of tools to draw, paint and create crafts and sculptures.</p> <p>Make choices about which materials to use to create an effect.</p> <p>Explore and analyse a wider variety of ways to join and fix materials in place.</p> <p>Develop observational skills to look closely.</p>	<p>Further demonstrate increased control with a greater range of media.</p> <p>Make choices about which materials and techniques to use to create an effect. Use hands and tools with confidence when cutting, shaping and joining paper, card and malleable materials.</p> <p>Develop observational skills to look closely and aim to reflect some of the formal elements of art (colour, pattern, texture, line, shape, form and space) in their work.</p>	<p>Confidently use of a range of materials, selecting and using these appropriately with more independence.</p> <p>Use hands and tools confidently to cut, shape and join materials for a purpose.</p> <p>Develop direct observation, for example by using tonal shading and starting to apply an understanding of shape to communicate form.</p>	<p>Demonstrate greater control over drawing tools to show awareness of proportion and continuing to develop use of tone and more intricate mark making.</p> <p>Use growing knowledge of different drawing materials, combining media for effect.</p> <p>Use more complex techniques to shape and join materials, such as carving and modelling wire.</p> <p>Apply observational skills, showing a greater awareness of composition and demonstrating the beginnings of an individual style.</p>	<p>Work with a range of media with control in different ways to achieve different effects, including experimenting with the techniques used by other artists.</p> <p>Combine a wider range of media, e.g. photography and digital art effects.</p> <p>Create in a more sustained way, revisiting artwork over time and applying their understanding of tone, texture, line, colour and form.</p>	<p>Create expressively in their own personal style and in response to their choice of stimulus, showing the ability to develop artwork independently.</p> <p>Combine materials and techniques appropriately to fit with ideas.</p> <p>Work in a sustained way over several sessions to complete a piece, including working collaboratively on a larger scale and incorporating the formal elements of art.</p>

<p>Knowledge of artists</p>	<p>Enjoy looking at and talking about art.</p> <p>Recognise that artists create varying types of art and use lots of different types of materials.</p> <p>Recognise that artists can be inspired by many things.</p>	<p>Understand how artists choose materials based on their properties in order to achieve certain effects.</p>	<p>Talk about art they have seen using some appropriate subject vocabulary. Create and critique both figurative and abstract art, recognising some of the techniques used.</p> <p>Apply their own understanding of art materials learnt from artist work to begin purposefully choosing materials for a specific effect.</p>	<p>Discuss how artists produced art in the past and understand the influence and impact of their methods and styles on art today, using their own experiences and historical evidence.</p> <p>Consider how to display art work, understanding how artists consider their viewer and the impact on them..</p>	<p>Use subject vocabulary confidently to describe and compare creative works.</p> <p>Understand how artists use art to convey messages through the choices they make.</p> <p>Work as a professional designer does, by collating ideas to generate a theme.</p>	<p>Research and discuss the ideas and approaches of artists across a variety of disciplines, being able to describe how the cultural and historical context may have influenced their creative work.</p> <p>Discuss how artists create work with the intent to create an impact on the viewer.</p> <p>Consider what choices can be made in their own work to impact their viewer.</p>	<p>Describe, interpret and evaluate the work, ideas and processes used by artists across a variety of disciplines, being able to describe how the cultural and historical context may have influenced their creative work.</p> <p>Recognise how artists use materials to respond to feelings and memory and choose materials, imagery, shape and form to create personal pieces.</p> <p>Understand how art forms such as photography and sculpture continually develop over time as artists seek to break new boundaries</p>
<p>Evaluating and analysing</p>	<p>Talk about their artwork, stating what they feel they did well.</p> <p>Say if they like an artwork or not and begin to form opinions by explaining why.</p>	<p>Describe and compare features of their own and other's art work.</p> <p>Evaluate art with an understanding of how art can be varied and made in different ways and by different people.</p>	<p>Explain their ideas and opinions about their own and other's art work, beginning to recognise the stories and messages within in showing an understanding of why they have made it.</p>	<p>Confidently explain their ideas and opinions about their own and others' artwork, with an understanding of the breadth of what art can be and that there are many ways to make art.</p>	<p>Use more complex vocabulary when discussing their own and others' art.</p> <p>Discuss art considering how it can affect the lives of the viewers or users of the piece.</p>	<p>Discuss the processes used by themselves and by other artists, and describe the particular outcome achieved.</p> <p>Consider how effectively pieces of art express emotion and encourage the</p>	<p>Give reasoned evaluations of their own and others work which takes account of context and intention.</p> <p>Discuss how art is sometimes used to communicate social, political, or</p>

			<p>Begin to talk about how they could improve their own work.</p> <p>Talk about how art is made.</p>	<p>Discuss and begin to interpret meaning and purpose of artwork, understanding how artists can use art to communicate.</p> <p>Begin to carry out a problem-solving process and make changes to improve their work.</p>	<p>Evaluate their work more regularly and independently during the planning and making process.</p>	<p>viewer to question their own ideas.</p> <p>Use their knowledge of tools, materials and processes to try alternative solutions and make improvements to their work.</p>	<p>environmental views.</p> <p>Explain how art can be created to cause reaction and impact and be able to consider why an artist chooses to use art in this way.</p> <p>Independently use their knowledge of tools, materials and processes to try alternative solutions and make improvements to their work.</p>
